## About Gym-N-Learn

It is our pleasure to introduce the Win Kids Gym-N-Learn Preschool Program. Gym-N-Learn is a motor skill based educational preschool for children ages 3-5. This is a one-of-a-kind learning experience that gets children EXCITED about school! We are passionate child development experts dedicated to creating positive early experiences. We know kids LOVE TO MOVE and be actively involved in their learning. Through movement, they discover their physical place in their environment and discover things about themselves. Win Kids provides the best possible environment by combining TWO SEPARATE WORLDS of child development: basic literacy skills and an academic curriculum with one of the best gymnastics, sports and motor skill programs anywhere.

We involve the whole child by incorporating activities from all key areas of development including social, personal, emotional, language and early literacy, health and safety, math, science, social studies and physical development.

Every week at school they will get to experience a gymnastics and motor skill based class that builds their physical confidence and prepares them to become happy and eager little learners.

We are excited that you are considering a partnership with us to help you develop a healthy, happy, responsible child!
